FAMILY MEMBERS: FREE MEMBERS: \$30 NON-MEMBERS: \$48

BASKETBALL CLINIC

Learn to dribble like Duncan, and shoot like Steph in this introductory course. Younger participants will focus more on the fundamentals, while the older ones will have more opportunities to practice their skills in pick-up games as well.

SOCCER CLINIC

Bend it like Beckham and score like Wambach in this fun and exciting introduction to soccer. Here we will work on the fundamental footwork, and how to play soccer. Older participants will have more opportunities for small sided games during the clinic.

STEM

Otherwise known as Science, Technology, Engineering, and Math. Participants will explore these amazing areas by working together on projects and challenges every week. Build the ultimate race car, become a mad scientist, or a fantastic architect and build the strongest tower!

DODGEBALL LEAGUE

If you can dodge a wrench, you can dodge a ball. Dodgeball is back, so show us what you've got. Dodge, duck, dip, dive, and dodge your way to elite status in this league. Teams consist of 6-10 members.

****ALL REGISTRATION IS DONE ONLINE OR AT THE WELCOME CENTER****
